

GRABO BALLOONS

We care,
We share!

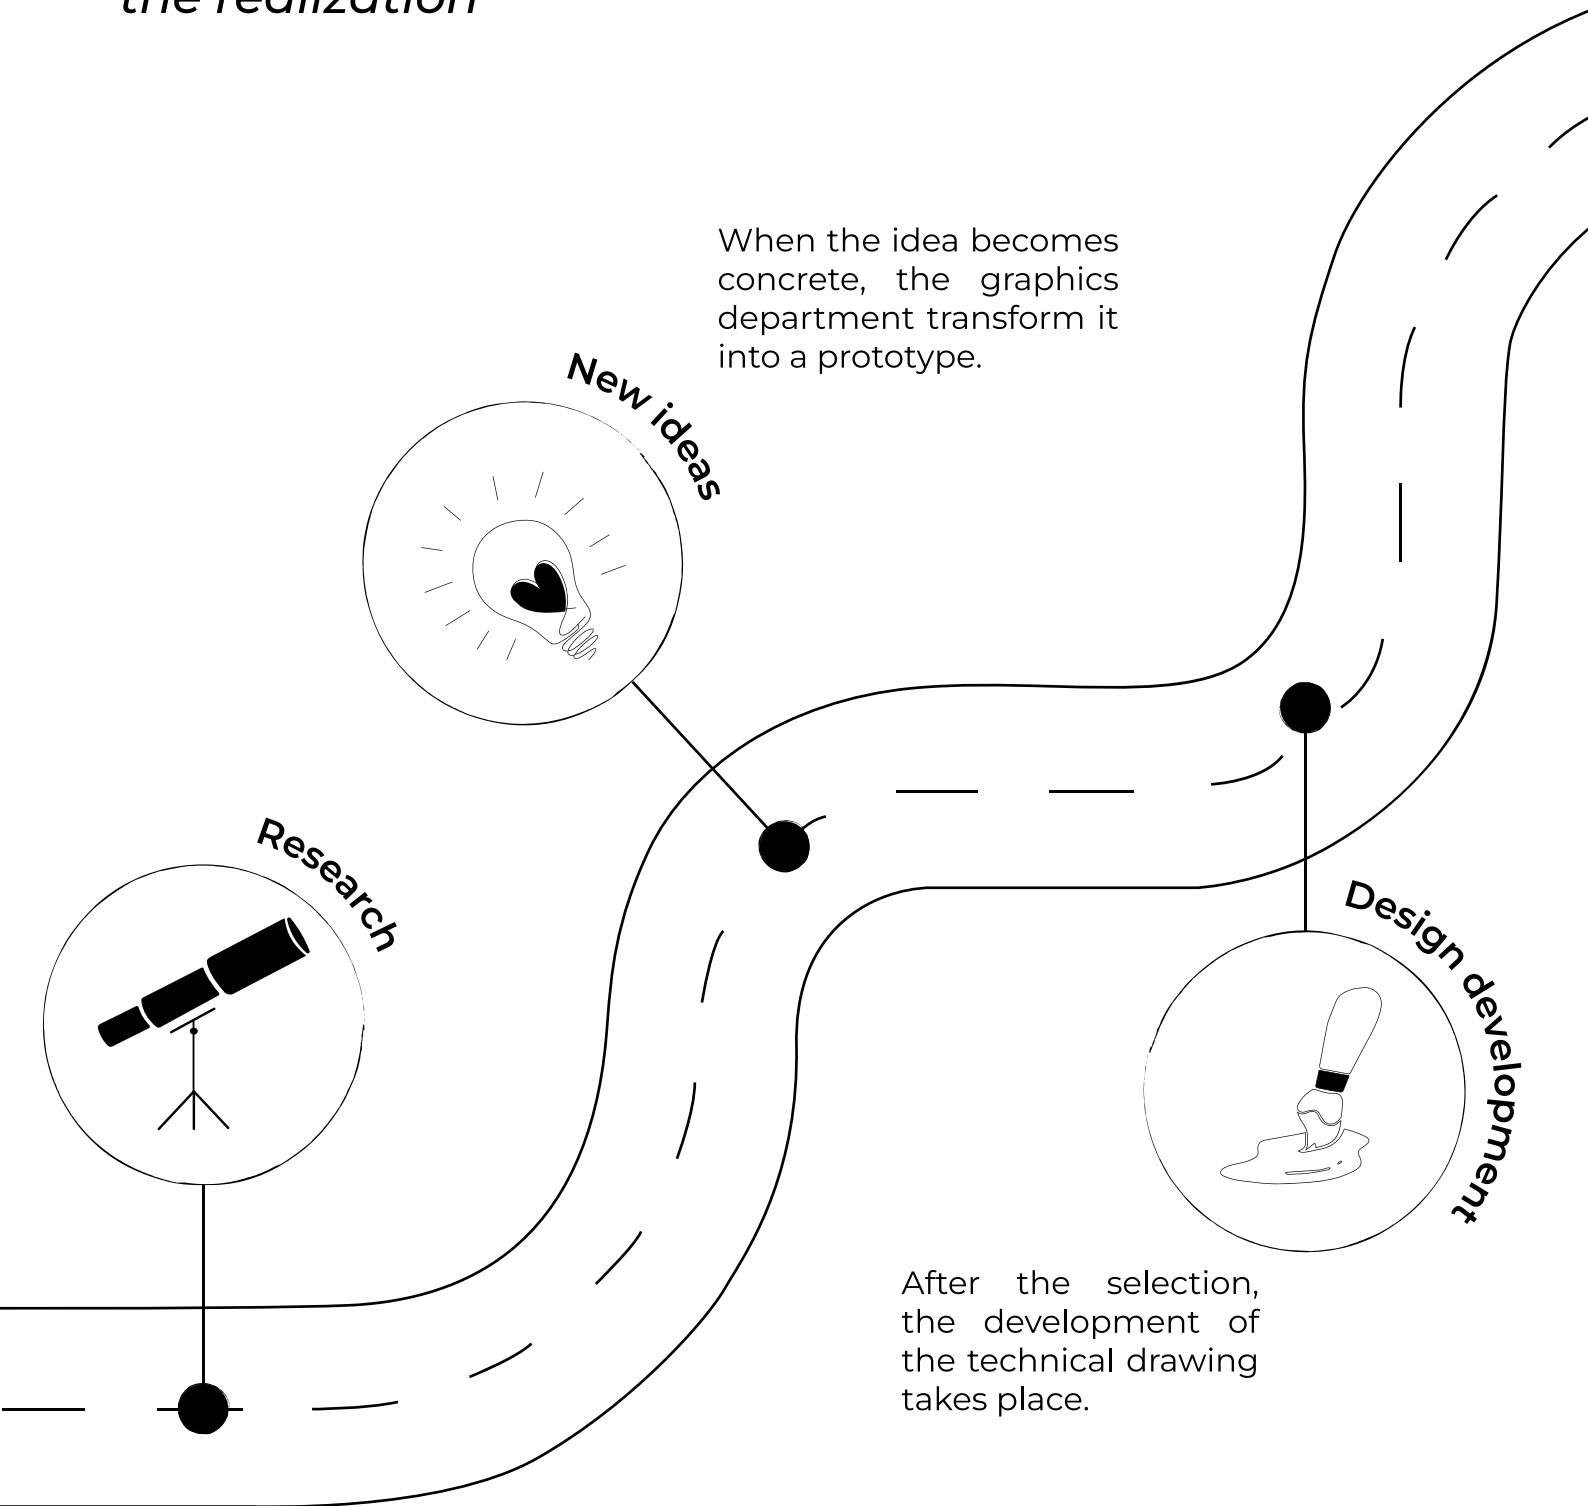

2024

THE BALLOON ROAD

from the thought of the creative to the realization

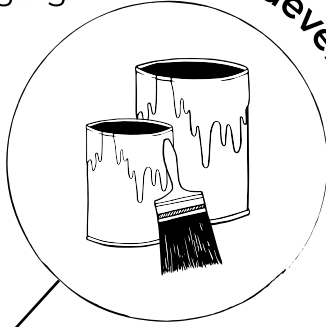

When the idea becomes concrete, the graphics department transform it into a prototype.

This is where everything begins, from research to the proposal of new ideas.

After the selection, the development of the technical drawing takes place.

This is where colors
takes shape, bringing
our designs to life.

Print development

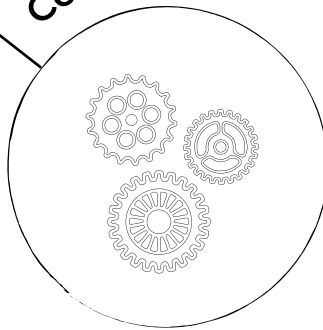

At this point the balloons
are ready to travel towards
you and bring joy to your
homes.

Shipping

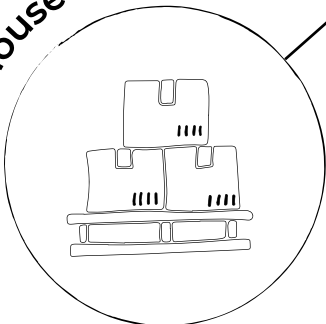

Converting

And this is where
the balloons are
made thanks to our
production chain.

Warehouse

This is the home of
our product range.

Starting in
our 18" b
composed
recycled m

This is a
toward a
more sust

In 2024,
balloons will be
made of 40 percent
recycled material.

A big step for us
toward a
greener and
more sustainable world.

OUR BALLOONS
ARE MADE USING
RECYCLED MATERIAL

Grabo Balloons has always tried to combine beauty and sustainability.

For this reason, in addition to the continuous exploration for new trends, new colors and new shapes there is always a careful search for new materials that are increasingly sustainable and environment friendly.

Starting in 2024,
our 18" balloons will be composed
of 40 percent recycled material.

This is a big step for us toward a
greener and more sustainable
world.

We strongly believe that each of us
can make a difference.

*Our concern for the environment
leads us to adopt numerous
initiatives year after year to make
our best contribution.*

Photovoltaic System
(Energy.Eng. Simone Imola)

In 2019 we installed 352kwp pho-
tovoltaic system converting the
entire useful surface of the roofs
of the production sector.
To date we have produced
100MWh of energy with this plant.

In 2021, we installed an additional
system covering the surface of our
warehouse.

As of today,
thanks to our photovoltaic system,
we have produced more than 2
GW of energy and avoided CO2
(carbon dioxide) emissions for a
total of 900,000kg.
We have therefore planted an
equivalent of 26,000 trees.

Don't

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasions.

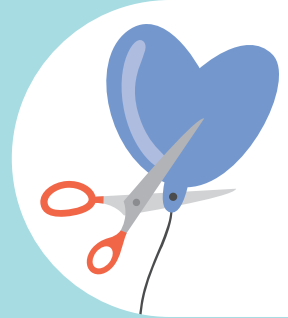

As responsible balloon professionals, we want to protect our environment from any unnecessary litter.

We have therefore taken the decision to not support balloons releases. We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. Please dispose of all balloons responsibly.

Enjoy your balloon purchase, please Don't Let Go!

When you've finished snip the end of the balloon and place it in a sustainable bin.

Please, Recycle Packaging!

Don't

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasions.

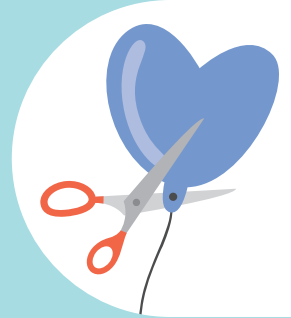

As responsible balloon professionals, we want to protect our environment from any unnecessary litter.

We have therefore taken the decision to not support balloons releases. We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. Please dispose of all balloons responsibly.

Enjoy your balloon purchase, please Don't Let Go!

When you've finished snip the end of the balloon and place it in a sustainable bin.

Please, Recycle Packaging!

Don't

Balloons are a much-loved product, bringing joy and helping us celebrate life's special occasions.

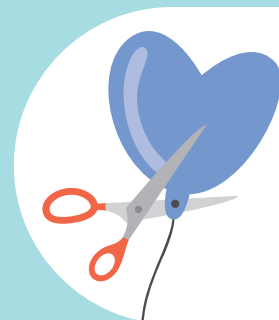

As responsible balloon professionals, we want to protect our environment from any unnecessary litter.

We have therefore taken the decision to not support balloons releases. We encourage our customers to support our position and not undertake or endorse balloon releases of any kind. Please dispose of all balloons responsibly.

Enjoy your balloon purchase, please Don't Let Go!

When you've finished snip the end of the balloon and place it in a sustainable bin.

Please, Recycle Packaging!
